Year/Period of Report

End of 2020/Q4

#### **INSTRUCTIONS FOR FILING FERC FORM NOS. 1 and 3-Q**

#### **GENERAL INFORMATION**

#### I. Purpose

FERC Form No. 1 (FERC Form 1) is an annual regulatory requirement for Major electric utilities, licensees and others (18 C.F.R. § 141.1). FERC Form No. 3-Q (FERC Form 3-Q) is a quarterly regulatory requirement which supplements the annual financial reporting requirement (18 C.F.R. § 141.400). These reports are designed to collect financial and operational information from electric utilities, licensees and others subject to the jurisdiction of the Federal Energy Regulatory Commission. These reports are also considered to be non-confidential public use forms.

#### II. Who Must Submit

Each Major electric utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject To the Provisions of The Federal Power Act (18 C.F.R. Part 101), must submit FERC Form 1 (18 C.F.R. § 141.1), and FERC Form 3-Q (18 C.F.R. § 141.400).

Note: Major means having, in each of the three previous calendar years, sales or transmission service that exceeds one of the following:

- (1) one million megawatt hours of total annual sales,
- (2) 100 megawatt hours of annual sales for resale,
- (3) 500 megawatt hours of annual power exchanges delivered, or
- (4) 500 megawatt hours of annual wheeling for others (deliveries plus losses).

#### III. What and Where to Submit

- (a) Submit FERC Forms 1 and 3-Q electronically through the forms submission software. Retain one copy of each report for your files. Any electronic submission must be created by using the forms submission software provided free by the Commission at its web site: <a href="https://forms.ferc.gov/">https://forms.ferc.gov/</a>. The software is used to submit the electronic filing to the Commission via the Internet.
- (b) The Corporate Officer Certification must be submitted electronically as part of the FERC Forms 1 and 3-Q filings.
- (c) Submit immediately upon publication, by either eFiling or mail, two (2) copies to the Secretary of the Commission, the latest Annual Report to Stockholders. Unless eFiling the Annual Report to Stockholders, mail the stockholders report to the Secretary of the Commission at:

Secretary Federal Energy Regulatory Commission 888 First Street, NE Washington, DC 20426

(d) For the CPA Certification Statement, submit within 30 days after filing the FERC Form 1, a letter or report (not applicable to filers classified as Class C or Class D prior to January 1, 1984). The CPA Certification Statement can be either eFiled or mailed to the Secretary of the Commission at the address above.

The CPA Certification Statement should:

- a) Attest to the conformity, in all material aspects, of the below listed (schedules and pages) with the Commission's applicable Uniform System of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and
- b) Be signed by independent certified public accountants or an independent licensed public accountant certified or licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 C.F.R. §§ 41.10-41.12 for specific qualifications.)

Reference Schedules	<u>Pages</u>
Comparative Balance Sheet	110-113
Statement of Income	114-117
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122-123

e) The following format must be used for the CPA Certification Statement unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

"In connection with our regular examination of the financial statements of for the year ended on which we have
reported separately under date of, we have also reviewed schedules
of FERC Form No. 1 for the year filed with the Federal Energy Regulatory Commission, for
conformity in all material respects with the requirements of the Federal Energy Regulatory Commission as set forth in its
applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such
tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases."

The letter or report must state which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

- (f) Filers are encouraged to file their Annual Report to Stockholders, and the CPA Certification Statement using eFiling. To further that effort, new selections, "Annual Report to Stockholders," and "CPA Certification Statement" have been added to the dropdown "pick list" from which companies must choose when eFiling. Further instructions are found on the Commission's website at https://www.ferc.gov/ferc-online/overview.
- (g) Federal, State and Local Governments and other authorized users may obtain additional blank copies of FERC Form 1 and 3-Q free of charge from <a href="https://www.ferc.gov/media/form-1">https://www.ferc.gov/media/form-1</a> and <a href="https://www.ferc.gov/media/form-1-3q">https://www.ferc.gov/media/form-1</a> and <a href="https://www.ferc.gov/media/form-1-3q">https://www.ferc.gov/media/form-1-3q</a>.

#### IV. When to Submit:

FERC Forms 1 and 3-Q must be filed by the following schedule:

- a) FERC Form 1 for each year ending December 31 must be filed by April 18<sup>th</sup> of the following year (18 CFR § 141.1), and
- b) FERC Form 3-Q for each calendar quarter must be filed within 60 days after the reporting quarter (18 C.F.R. § 141.400).

# V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for the FERC Form 1 collection of information is estimated to average 1,168 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data-needed, and completing and reviewing the collection of information. The public reporting burden for the FERC Form 3-Q collection of information is estimated to average 168 hours per response.

Send comments regarding these burden estimates or any aspect of these collections of information, including suggestions for reducing burden, to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426 (Attention: Information Clearance Officer); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission). No person shall be subject to any penalty if any collection of information does not display a valid control number (44 U.S.C. § 3512 (a)).

#### **GENERAL INSTRUCTIONS**

Prepare this report in conformity with the Uniform System of Accounts (18 CFR Part 101) (USofA). Interpret

II. Enter in whole numbers (dollars or MWH) only, except where otherwise noted, (Enter cents for averages and

all accounting words and phrases in accordance with the USofA.

- figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting period, and use for statement of income accounts the current year's year to date amounts.
- Complete each question fully and accurately, even if it has been answered in a previous report. Enter the word "None" where it truly and completely states the fact.
- For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions (see VII. below).
- VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses.
- For any resubmissions, submit the electronic filing using the form submission software only. Please explain VII the reason for the resubmission in a footnote to the data field.
- VIII. Do not make references to reports of previous periods/years or to other reports in lieu of required entries, except as specifically authorized.
- IX. Wherever (schedule) pages refer to figures from a previous period/year, the figures reported must be based upon those shown by the report of the previous period/year, or an appropriate explanation given as to why the different figures were used.

Definitions for statistical classifications used for completing schedules for transmission system reporting are as follows:

- FNS Firm Network Transmission Service for Self. "Firm" means service that can not be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff. "Self" means the respondent.
- FNO Firm Network Service for Others, "Firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff.
- LFP for Long-Term Firm Point-to-Point Transmission Reservations. "Long-Term" means one year or longer and" firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Point-to-Point Transmission Reservations" are described in Order No. 888 and the Open Access Transmission Tariff. For all transactions identified as LFP, provide in a footnote the

termination date of the contract defined as the earliest date either buyer or seller can unilaterally cancel the contract.

- OLF Other Long-Term Firm Transmission Service. Report service provided under contracts which do not conform to the terms of the Open Access Transmission Tariff. "Long-Term" means one year or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. For all transactions identified as OLF, provide in a footnote the termination date of the contract defined as the earliest date either buyer or seller can unilaterally get out of the contract.
- SFP Short-Term Firm Point-to-Point Transmission Reservations. Use this classification for all firm point-to-point transmission reservations, where the duration of each period of reservation is less than one-year.
- NF Non-Firm Transmission Service, where firm means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions.
- OS Other Transmission Service. Use this classification only for those services which can not be placed in the above-mentioned classifications, such as all other service regardless of the length of the contract and service FERC Form. Describe the type of service in a footnote for each entry.
- AD Out-of-Period Adjustments. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting periods. Provide an explanation in a footnote for each adjustment.

#### DEFINITIONS

- I. Commission Authorization (Comm. Auth.) -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- II. Respondent -- The person, corporation, licensee, agency, authority, or other Legal entity or instrumentality in whose behalf the report is made.

# EVERGY GENERATING, INC.

**Notes to Financial Statements** 

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# **Organization**

The term "Evergy Generating" is used throughout this report and refers to Evergy Generating, Inc. (Evergy Generating). Evergy Generating is a rate-regulated electric utility and is a wholly-owned subsidiary of Evergy Kansas Central, Inc. (Evergy Kansas Central), an integrated, regulated electric utility that provides electricity to customers in the state of Kansas. Evergy Kansas Central is a wholly-owned subsidiary of Evergy, Inc. (Evergy). Evergy also owns Evergy Metro, Inc. (Evergy Metro) and Evergy Missouri West, Inc. (Evergy Missouri West), both integrated, regulated electric utilities.

Evergy Generating owns a 40% undivided interest in the State Line Combined Cycle Generating Facility (State Line) located near Joplin, Missouri, and sells all of its portion of the electric power to Evergy Kansas Central. The Empire District Electric Company (EDE) owns the remaining 60% and operates the facility.

## **Basis of Accounting**

The accounting records of Evergy Generating are maintained in accordance with the accounting requirements of the Federal Energy Regulatory Commission (FERC) as set forth in its applicable Uniform System of Accounts and published accounting releases. The accompanying financial statements have been prepared in accordance with the accounting requirements of these regulators, which differ from generally accepted accounting principles (GAAP). Evergy Generating classifies certain items in its accompanying Comparative Balance Sheet (primarily the components of accumulated deferred income taxes, non-legal cost of removal, certain miscellaneous current and accrued liabilities and current regulatory assets and regulatory liabilities, among other items) in a manner different than that required by GAAP.

Evergy Generating has evaluated for potential recognition or disclosure purposes the impact of events occurring after December 31, 2020 up to April 19, 2021, the date these financial statements were available to be issued. These financial statements include all necessary adjustments and disclosures resulting from these evaluations.

## **Use of Estimates**

The process of preparing financial statements requires the use of estimates and assumptions that affect the reported amounts of certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

# **Property, Plant and Equipment**

Evergy Generating records the value of property, plant and equipment at cost. The cost of additions to utility plant and replacement units of property are capitalized. When property units are retired or otherwise disposed, the original cost, net of salvage, is charged to accumulated depreciation. Repair of property and replacement of items not considered to be units of property are expensed as incurred.

# **Depreciation and Amortization**

Depreciation and amortization of utility plant is computed using the straight-line method over the estimated lives of depreciable property. Annual depreciation rates average approximately 4%.

## **Capital Stock**

Evergy Generating's Articles of Incorporation provide for 1,000 authorized shares of common stock, all of which were

issued and outstanding at December 31, 2020. All of Evergy Generating's common stock is owned by Evergy Kansas Central

## **Revenue Recognition**

Evergy Generating recognizes revenue when energy is transmitted to Evergy Kansas Central.

#### **Income Taxes**

Income taxes are accounted for using the asset/liability approach. Deferred tax assets and liabilities are determined based on the temporary differences between the financial reporting and tax bases of assets and liabilities, applying enacted statutory rates in effect for the year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of the deferred tax assets will not be realized.

Evergy Generating recognizes tax benefits based on a "more-likely-than-not" recognition threshold. In addition, Evergy Generating recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses.

Evergy and its direct and indirect subsidiaries, including Evergy Generating, file a consolidated federal income tax return as well as unitary and combined income tax returns in several state jurisdictions with Kansas and Missouri being the most significant. Income taxes for consolidated or combined subsidiaries are allocated to the subsidiaries based on separate company computations of income or loss. Evergy Generating's income tax provisions includes taxes allocated based on its separate company income or loss.

## 2. RATE MATTERS AND REGULATION

Evergy Generating sells power to Evergy Kansas Central at an established rate under terms outlined in an agreement filed in Docket No. ER13-1210 and accepted by the FERC in January 2014.

## 3. COMMITMENTS AND CONTINGENCIES

## **Gas Transportation**

As of December 31, 2020, Evergy Generating's natural gas transportation commitment in 2020 dollars under the remaining terms of the contract was approximately \$4.7 million. The natural gas transportation contract provides firm transportation and expires October 31, 2022.

## 4. RELATED PARTY TRANSACTIONS AND RELATIONSHIPS

Evergy Generating generates and sells electric power to Evergy Kansas Central. The source of this power is Evergy Generating's 40% interest in State Line. Sales to Evergy Kansas Central for the year ended December 31, 2020, were approximately \$33.6 million compared to approximately \$35.8 million for the same period in 2019.

Evergy Generating's cash management function, including cash receipts and disbursements, is performed by Evergy Kansas Central. An intercompany account is used to to record net receipts and disbursements between the companies. The net amount receivable from Evergy Kansas Central as of December 31, 2020 and 2019, was approximately \$88.7 million and \$91.5 million, respectively.

#### 5. TAXES

Components of income tax expense are detailed in the following table.

## **Excess Deferred Income Taxes**

In December 2017, Evergy Generating remeasured its deferred tax liabilities to the new federal corporate income tax rate of 21%. The result of this remeasurement was a reduction in the net deferred tax liability of approximately \$3.6 million. Based on Evergy Generating's estimate of the amount of excess deferred income taxes (EDIT) that would be used to reduce future customer rates, Evergy Generating recorded an increase in regulatory liabilities of approximately \$4.9 million. The additional \$1.3 million of regulatory liabilities was required to reflect the future revenue reduction required to return previously collected income taxes to customers and was offset by \$1.3 million of deferred tax assets related to the regulatory liabilities. The debits (credits) in the 2017 remeasurement of deferred income taxes are reflected in the table below.

	254	190	282
		(millions)	
Remeasurement of deferred income taxes	(\$4.9)	\$1.3	\$3.6

Evergy Generating had \$3.6 million of protected federal EDIT as of December 31, 2020 and 2019. Evergy Generating did not have any unprotected federal EDIT as of December 31, 2020 and 2019.

In May 2020, the state of Kansas exempted certain public utilities, including Evergy Generating, from Kansas corporate income tax beginning in 2021 and authorized the KCC to approve changes in rates related to increases or decreases in

federal or state income tax rates.

As a result of the exemption from Kansas corporate income tax, Evergy Generating revalued its deferred income tax assets and liabilities in May 2020 resulting in a decrease of net deferred income tax liabilities representing the amount of state EDIT that will be used to reduce future customer rates. Evergy Generating recorded an increase in regulatory liabilities of approximately \$0.6 million. The debits (credits) in the 2020 remeasurement of deferred income taxes are reflected in the table below.

	254	282
	(milli	ons)
Remeasurement of deferred income taxes	(\$0.6)	\$0.6

Evergy Generating had \$0.6 million of unprotected state EDIT as of December 31, 2020. Evergy Generating did not have any unprotected state EDIT as of December 31, 2019.

There was no amortization of EDIT in 2020 and 2019 since Evergy Generating does not yet have a mechanism in place to share the net tax benefits with its customers. Evergy Generating will use the average rate assumption method (ARAM) for amortization of its protected EDIT. ARAM is used to refund depreciation-related EDIT over the remaining book lives of the underlying assets which are estimated to be approximately 30 years. The EDIT in account 254 will amortize to account 411.
