

# Renewables Announcement

*August 9, 2022*

# Persimmon Creek Wind Farm

- Signed agreement to acquire 199 MW Persimmon Creek Wind Farm located in Woodward, OK from Scout Clean Energy
- ~\$250M investment (~\$1,250/kW) for Missouri West jurisdiction
- Became operational August 2018, historical net capacity factor of ~50%
- Capitalizing on a cost-competitive opportunity positioned to avoid permitting, supply chain, construction, and price inflation risk
- 100% PTC and Missouri PISA eligible
- Expecting to file for Certificate of Convenience and Necessity with Missouri Public Service Commission in August 2022
- Targeting close by early 2023 subject to required approvals

***Customer-focused generation investment satisfies two-thirds of planned 300MW renewable additions in 2024***
