FERC FINANCIAL REPORT FERC FORM No. 1: Annual Report of Major Electric Utilities, Licensees and Others and Supplemental Form 3-Q: Quarterly Financial Report

These reports are mandatory under the Federal Power Act, Sections 3, 4(a), 304 and 309, and 18 CFR 141.1 and 141.400. Failure to report may result in criminal fines, civil penalties and other sanctions as provided by law. The Federal Energy Regulatory Commission does not consider these reports to be of confidential nature

INSTRUCTIONS FOR FILING FERC FORM NOS. 1 and 3-Q

GENERAL INFORMATION

I. Purpose

FERC Form No. 1 (FERC Form 1) is an annual regulatory requirement for Major electric utilities, licensees and others (18 C.F.R. § 141.1). FERC Form No. 3-Q (FERC Form 3-Q) is a quarterly regulatory requirement which supplements the annual financial reporting requirement (18 C.F.R. § 141.400). These reports are designed to collect financial and operational information from electric utilities, licensees and others subject to the jurisdiction of the Federal Energy Regulatory Commission. These reports are also considered to be non-confidential public use forms.

II. Who Must Submit

Each Major electric utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject To the Provisions of The Federal Power Act (18 C.F.R. Part 101), must submit FERC Form 1 (18 C.F.R. § 141.1), and FERC Form 3-Q (18 C.F.R. § 141.400).

Note: Major means having, in each of the three previous calendar years, sales or transmission service that exceeds one of the following:

- (1) one million megawatt hours of total annual sales,
- (2) 100 megawatt hours of annual sales for resale,
- (3) 500 megawatt hours of annual power exchanges delivered, or
- (4) 500 megawatt hours of annual wheeling for others (deliveries plus losses).

III. What and Where to Submit

- (a) Submit FERC Forms 1 and 3-Q electronically through the forms submission software. Retain one copy of each report for your files. Any electronic submission must be created by using the forms submission software provided free by the Commission at its web site: http://www.ferc.gov/docs-filing/forms/form-1/elec-subm-soft.asp. The software is used to submit the electronic filing to the Commission via the Internet.
- (b) The Corporate Officer Certification must be submitted electronically as part of the FERC Forms 1 and 3-Q filings.
- (c) Submit immediately upon publication, by either eFiling or mail, two (2) copies to the Secretary of the Commission, the latest Annual Report to Stockholders. Unless eFiling the Annual Report to Stockholders, mail the stockholders report to the Secretary of the Commission at:

Secretary Federal Energy Regulatory Commission 888 First Street, NE Washington, DC 20426

(d) For the CPA Certification Statement, submit within 30 days after filing the FERC Form 1, a letter or report (not applicable to filers classified as Class C or Class D prior to January 1, 1984). The CPA Certification Statement can be either eFiled or mailed to the Secretary of the Commission at the address above.

The CPA Certification Statement should:

- a) Attest to the conformity, in all material aspects, of the below listed (schedules and pages) with the Commission's applicable Uniform System of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and
- b) Be signed by independent certified public accountants or an independent licensed public accountant certified or licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 C.F.R. §§ 41.10-41.12 for specific qualifications.)

Reference Schedules	<u>Pages</u>
Comparative Balance Sheet	110-113
Statement of Income	114-117
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122-123

e) The following format must be used for the CPA Certification Statement unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

"In connection with our regular examination of the financial statements of _____ for the year ended on which we have reported separately under date of _____ , we have also reviewed schedules ____ of FERC Form No. 1 for the year filed with the Federal Energy Regulatory Commission, for conformity in all material respects with the requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases."

The letter or report must state which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

- (f) Filers are encouraged to file their Annual Report to Stockholders, and the CPA Certification Statement using eFiling. To further that effort, new selections, "Annual Report to Stockholders," and "CPA Certification Statement" have been added to the dropdown "pick list" from which companies must choose when eFiling. Further instructions are found on the Commission's website at http://www.ferc.gov/help/how-to.asp.
- (g) Federal, State and Local Governments and other authorized users may obtain additional blank copies of FERC Form 1 and 3-Q free of charge from http://www.ferc.gov/docs-filing/forms/form-1/form-1.pdf and http://www.ferc.gov/docs-filing/forms.asp#3Q-qas.

IV. When to Submit:

FERC Forms 1 and 3-Q must be filed by the following schedule:

- a) FERC Form 1 for each year ending December 31 must be filed by April 18th of the following year (18 CFR § 141.1), and
- b) FERC Form 3-Q for each calendar quarter must be filed within 60 days after the reporting quarter (18 C.F.R. § 141.400).

V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for the FERC Form 1 collection of information is estimated to average 1,168 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data-needed, and completing and reviewing the collection of information. The public reporting burden for the FERC Form 3-Q collection of information is estimated to average 168 hours per response.

Send comments regarding these burden estimates or any aspect of these collections of information, including suggestions for reducing burden, to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426 (Attention: Information Clearance Officer); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission). No person shall be subject to any penalty if any collection of information does not display a valid control number (44 U.S.C. § 3512 (a)).

GENERAL INSTRUCTIONS

Prepare this report in conformity with the Uniform System of Accounts (18 CFR Part 101) (USofA). Interpret

II. Enter in whole numbers (dollars or MWH) only, except where otherwise noted, (Enter cents for averages and

all accounting words and phrases in accordance with the USofA.

- figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting period, and use for statement of income accounts the current year's year to date amounts.
- Complete each question fully and accurately, even if it has been answered in a previous report. Enter the word "None" where it truly and completely states the fact.
- For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions (see VII. below).
- VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses.
- For any resubmissions, submit the electronic filing using the form submission software only. Please explain VII the reason for the resubmission in a footnote to the data field.
- VIII. Do not make references to reports of previous periods/years or to other reports in lieu of required entries, except as specifically authorized.
- IX. Wherever (schedule) pages refer to figures from a previous period/year, the figures reported must be based upon those shown by the report of the previous period/year, or an appropriate explanation given as to why the different figures were used.

Definitions for statistical classifications used for completing schedules for transmission system reporting are as follows:

- FNS Firm Network Transmission Service for Self. "Firm" means service that can not be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff. "Self" means the respondent.
- FNO Firm Network Service for Others, "Firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff.
- LFP for Long-Term Firm Point-to-Point Transmission Reservations. "Long-Term" means one year or longer and" firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Point-to-Point Transmission Reservations" are described in Order No. 888 and the Open Access Transmission Tariff. For all transactions identified as LFP, provide in a footnote the

termination date of the contract defined as the earliest date either buyer or seller can unilaterally cancel the contract.

- OLF Other Long-Term Firm Transmission Service. Report service provided under contracts which do not conform to the terms of the Open Access Transmission Tariff. "Long-Term" means one year or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. For all transactions identified as OLF, provide in a footnote the termination date of the contract defined as the earliest date either buyer or seller can unilaterally get out of the contract.
- SFP Short-Term Firm Point-to-Point Transmission Reservations. Use this classification for all firm point-to-point transmission reservations, where the duration of each period of reservation is less than one-year.
- NF Non-Firm Transmission Service, where firm means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions.
- OS Other Transmission Service. Use this classification only for those services which can not be placed in the above-mentioned classifications, such as all other service regardless of the length of the contract and service FERC Form. Describe the type of service in a footnote for each entry.
- AD Out-of-Period Adjustments. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting periods. Provide an explanation in a footnote for each adjustment.

DEFINITIONS

- I. Commission Authorization (Comm. Auth.) -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- II. Respondent -- The person, corporation, licensee, agency, authority, or other Legal entity or instrumentality in whose behalf the report is made.

EXCERPTS FROM THE LAW

Federal Power Act, 16 U.S.C. § 791a-825r

- Sec. 3. The words defined in this section shall have the following meanings for purposes of this Act, to with:
- (3) 'Corporation' means any corporation, joint-stock company, partnership, association, business trust, organized group of persons, whether incorporated or not, or a receiver or receivers, trustee or trustees of any of the foregoing. It shall not include 'municipalities, as hereinafter defined;
 - (4) 'Person' means an individual or a corporation:
- (5) 'Licensee, means any person, State, or municipality Licensed under the provisions of section 4 of this Act, and any assignee or successor in interest thereof;
- (7) 'municipality means a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the Laws thereof to carry and the business of developing, transmitting, unitizing, or distributing power;
- (11) "project' means. a complete unit of improvement or development, consisting of a power house, all water conduits, all dams and appurtenant works and structures (including navigation structures) which are a part of said unit, and all storage, diverting, or fore bay reservoirs directly connected therewith, the primary line or lines transmitting power there from to the point of junction with the distribution system or with the interconnected primary transmission system, all miscellaneous structures used and useful in connection with said unit or any part thereof, and all water rights, rights-of-way, ditches, dams, reservoirs, Lands, or interest in Lands the use and occupancy of which are necessary or appropriate in the maintenance and operation of such unit;
- "Sec. 4. The Commission is hereby authorized and empowered
- (a) To make investigations and to collect and record data concerning the utilization of the water 'resources of any region to be developed, the water-power industry and its relation to other industries and to interstate or foreign commerce, and concerning the location, capacity, development -costs, and relation to markets of power sites; ... to the extent the Commission may deem necessary or useful for the purposes of this Act."
- "Sec. 304. (a) Every Licensee and every public utility shall file with the Commission such annual and other periodic or special* reports as the Commission may be rules and regulations or other prescribe as necessary or appropriate to assist the Commission in the -proper administration of this Act. The Commission may prescribe the manner and FERC Form in which such reports salt be made, and require from such persons specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and Liabilities, capitalization, net investment, and reduction thereof, gross receipts, interest due and paid, depreciation, and other reserves, cost of project and other facilities, cost of maintenance and operation of the project and other facilities, cost of renewals and replacement of the project works and other facilities, depreciation, generation, transmission, distribution, delivery, use, and sale of electric energy. The Commission may require any such person to make adequate provision for currently determining such costs and other facts. Such reports shall be made under oath unless the Commission otherwise specifies*.10

"Sec. 309. The Commission shall have power to perform any and all acts, and to prescribe, issue, make, and rescind such orders, rules and regulations as it may find necessary or appropriate to carry out the provisions of this Act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this Act; and may prescribe the FERC Form or FERC Forms of all statements, declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and the time within which they shall be field..."

General Penalties

The Commission may assess up to \$1 million per day per violation of its rules and regulations. *See* FPA § 316(a) (2005), 16 U.S.C. § 825o(a).

IMPORTANT CHANGES DURING THE QUARTER/YEAR (Continued)								

1. Changes in and important additions to franchise rights:

None.

2. Acquisition, merger, or consolidation with other companies:

In May 2016, our parent company, Westar Energy, Inc. (Westar energy), entered into an agreement and plan of merger with Great Plains Energy Incorporated (Great Plains Energy), a Missouri corporation. On April 19, 2017, the Kansas Corporation Commission (KCC) rejected the merger application. On June 9, 2017, Westar Energy entered into an amended and restated agreement and plan of merger with Great Plains Energy that provides for a merger of equals between the two companies. The closing of the merger is subject to customary conditions including, among others, approval by both companies' shareholders and required regulatory approvals.

3. Purchase or sale of an operating unit or system:

None.

4. Important leaseholds:

None.

5. Important extension or reduction of transmission or distribution system:

None.

6. Obligations:

None.

7. Changes in articles of incorporation or amendments to charter:

None.

8. Wage scale changes:

We have no employees. The employees of Westar Energy, Inc., our parent company, allocate their time to us.

9. Legal proceedings:

See the Notes to Financial Statements on page 123.

10. Important transactions:

See the Notes to Financial Statements on page 123.

12. Important changes:

See the Notes to Financial Statements on page 123.

13. Changes in officers, directors, major security holders and voting powers:

None.

14. Participation in cash management program(s):

Not Applicable.

NOTES TO FINANCIAL STATEMENTS (Continued)								

Westar Generating, Inc.

Notes to Financial Statements

1. DESCRIPTION OF BUSINESS

Westar Generating, Inc. is a rate-regulated electric utility incorporated in 1999 in the State of Kansas. Unless the context otherwise indicates, all references in these notes to "the company," "we," "us," "our" and similar words are to Westar Generating, Inc. We are a wholly-owned subsidiary of Westar Energy, Inc. (Westar Energy).

We own a 40% undivided interest in the State Line Combined Cycle Generating Facility (State Line) located near Joplin, Missouri, and sell all our portion of the electric power to Westar Energy. The Empire District Electric Company owns the remaining 60% and operates the facility.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

For the purpose of this report, the financial statements are prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission (FERC) as set forth in its Uniform System of Accounts and published Accounting Releases, which is a comprehensive basis of accounting other than generally accepted accounting principles. The principal difference from accounting principles generally accepted in the United States of America relates to the presentation of deferred income taxes.

Events which occurred subsequent to the date of the balance sheet have been evaluated for potential recognition or disclosure in the financial statements through April 13, 2018, the date these financial statements were available to be issued.

Use of Management's Estimates

When we prepare our financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of revenues and expenses during the reporting period. We evaluate our estimates on an ongoing basis, including those related to inventories, depreciation, income taxes, environmental issues, contingencies and litigation. Actual results may differ from those estimates under different assumptions or conditions.

Property, Plant and Equipment

We record the value of property, plant and equipment at cost. The cost of additions to utility plant and replacement units of property are capitalized. Maintenance costs and replacement of minor items of property are charged to expense as incurred. When units of depreciable property are retired, the original cost and removal cost, less salvage value, are charged to accumulated depreciation. Utility plant is depreciated using the straight-line method. The rates are based on an average annual composite basis using group rates that approximated 4.0% for 2017 and 4.1% for 2016.

Capital Stock

Our Articles of Incorporation provide for 1,000 authorized shares of common stock. We had 1,000 shares issued and outstanding at December 31, 2017. All of our common stock is owned by Westar Energy.

Revenue Recognition

Energy sales are recognized when energy is transmitted to Westar Energy.

FERC FORM NO. 1 (ED. 12-88)	Page 123.1

	(1) X An Original	(Mo, Da, Yr)						
Westar Generating, Inc.	(2) _ A Resubmission	1.1	2017/Q4					
NOTES TO FINANCIAL STATEMENTS (Continued)								

Income Taxes

We use the asset and liability method of accounting for income taxes. Under the asset and liability method, we recognize deferred tax assets and liabilities for the future tax consequences attributable to temporary differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities. We recognize the future tax benefits to the extent that realization of such benefits is more likely than not.

3. RATE MATTERS AND REGULATION

We sell power to Westar Energy at an established rate under terms outlined in an agreement filed in Docket No. ER13-1210 and accepted by the FERC in January 2014.

4. JOINT OWNERSHIP OF UTILITY PLANT

	Our Ownership as of December 31, 2017

		(I	Dollars in Thousan	ds)						
State Line	June 2001	\$ 112,679	\$ 67,187	\$ 454	196	40				

EDE is responsible for the operation and maintenance of State Line and for its proportionate share of costs. Amounts and capacity presented above represent our share. Our share of operating expenses is included in operating expenses on our statement of income. Our share of other transactions associated with the plant is included in the appropriate classification in our financial statements.

5. COMMITMENTS AND CONTINGENCIES

Gas Transportation

As of December 31, 2017, our natural gas transportation commitment in 2017 dollars under the remaining terms of the contract was approximately \$12.4 million. The natural gas transportation contract provides firm transportation and expires October 31, 2022.

	(1) X An Original	(Mo, Da, Yr)						
Westar Generating, Inc.	(2) A Resubmission	11	2017/Q4					
NOTES TO FINANCIAL STATEMENTS (Continued)								

6. INCOME TAXES

Income tax expense is comprised of the following components at December 31, 2017.

	Year Ended December 31,				
	2017	2016			
	(In Thousands)				
Charged to Operating Expenses (net):					
Current	\$ 1,918	\$	2,488		
Deferred	288		(50)		
Total	\$ 2,206	\$	2,438		

Accumulated deferred income taxes are reflected on our balance sheet as follows.

	Year Ended December 3				
	2017	2016			
	(In	Γhous	ands)		
Deferred tax assets	\$ 1,312	\$	-		
Deferred tax liabilities	7,401		10,746		
Net deferred tax liabilities	\$ 6,089	\$	10,746		

We are a member of Westar Energy's consolidated tax group and file consolidated tax returns with Westar Energy. Westar Energy allocates to us our pro rata portion of consolidated income taxes based on our contribution to consolidated taxable income.

The Tax Cuts and Jobs Act (TCJA), which was signed into law in December 2017, significantly reforms the Internal Revenue Code (IRC), generally effective January 1, 2018. The TCJA contains significant changes to federal corporate income taxation, including, in general and among other things, a federal corporate income tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017, limiting the deduction for net operating losses and eliminating net operating loss carrybacks for losses after 2017, and eliminating our use of bonus depreciation on new capital investments. As a result, we decreased deferred income tax liabilities by approximately \$3.6 million, increased deferred income tax assets by approximately \$1.3 million and made corresponding adjustments to regulatory assets and liabilities.

The effective income tax rates set forth below are for continuing operations. The rates are computed by dividing total federal and state income taxes by the sum of such taxes and net income. The difference between the effective tax rates and the federal statutory income tax rates are as follows.

	Year Ended December 31					
	2017		2016			
Statutory federal income tax rate Effect of:	35.0	%	35.0	%		
State income taxes Effective income tax rate	2.0 37.0	· %	1.2 36.2	%

7. RELATED PARTY TRANSACTIONS

We are a wholly-owned subsidiary of Westar Energy. Costs allocated to us by Westar Energy may not reflect what our actual costs would be if we were not a wholly-owned subsidiary and, therefore, our financial results may be different.

We generate and sell electric power to Westar Energy. The source of this power is our 40% interest in State Line. Sales to Westar Energy for the year ended December 31, 2017 were approximately \$41.0 million compared to approximately \$37.9 million for the same period in 2016.

Our cash management function, including cash receipts and disbursements, is performed by Westar Energy. An intercompany account is used to record net receipts and disbursements between us and Westar Energy. The net amount receivable from Westar Energy as of December 31, 2017, and December 31, 2016, was approximately \$85.8 million and \$81.6 million, respectively.

We declared and recorded dividends of \$5.0 million and \$6.0 million to Westar Energy during the years ended December 31, 2017 and 2016, respectively.

		SAL	ES FOR RESALE (Accour	nt 447)						
power for eight	1. Report all sales for resale (i.e., sales to purchasers other than ultimate consumers) transacted on a settlement basis other than bower exchanges during the year. Do not report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges on this schedule. Power exchanges must be reported on the Purchased Power schedule (Page 326-327). 2. Enter the name of the purchaser in column (a). Do note abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the purchaser. 3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows: RQ - for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projected load for this service in its system resource planning). In addition, the reliability of requirements service must be the same as, or second only to, the supplier's service to its own ultimate consumers. LF - for tong-term service. "Long-term" means five years or Longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for Long-term firm service which meets the definition of RQ service. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or setter can unilaterally get out of the contract. IF - for intermediate-term firm service. Use this category for all firm services where the duration of each period of commitment for service is onne year. SF - for short-term firm service from a designated generating unit. "Long-term" means five years or Longer. The availab

A any se an exch nterest	lso report exchanges of el ttlements for imbalanced e ange transaction in columi or affiliation the responder	ectricity (i.e., tra schanges. n (a). Do not al nt has with the s	obreviate or seller.	r truncate	the name or use					
supp	RQ - for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projects load for this service in its system resource planning). In addition, the reliability of requirement service must be the same as, or second only to, the supplier's service to its own ultimate consumers.											
econ ener whic	LF - for long-term firm service. "Long-term" means five years or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for long-term firm service firm service which meets the definition of RQ service. For all transaction identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or seller can unilaterally get out of the contract.											
	or intermediate-term firm service. The same five years.	e as LF	service expect that "interm	ediate-term" m	eans longe	r than one	e year but less					
	for short-term service. Use this category for or less.	all firm	services, where the durat	on of each per	od of comn	nitment fo	or service is one					
	for long-term service from a designated gen ce, aside from transmission constraints, mus	•	•	•	•	•	and reliability of					
longe EX -	service, aside from transmission constraints, must match the availability and reliability of the designated unit. IU - for intermediate-term service from a designated generating unit. The same as LU service expect that "intermediate-term" means longer than one year but less than five years. EX - For exchanges of electricity. Use this category for transactions involving a balancing of debits and credits for energy, capacity, etc.											
and any settlements for imbalanced exchanges. OS - for other service. Use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the Length of the contract and service from designated units of Less than one year. Describe the nature

	AM	OUNT	S INCLUDED I	N ISO/RTO SETT	TLEMENT S	TATEMENTS						
Resa or pu vhet	The respondent shall report below the details called for concerning amounts it recorded in Account 555, Purchase Power, and Account 447, Sales for sale, for items shown on ISO/RTO Settlement Statements. Transactions should be separately netted for each ISO/RTO administered energy market ourposes of determining whether an entity is a net seller or purchaser in a given hour. Net megawatt hours are to be used as the basis for determining either a net purchase or sale has occurred. In each monthly reporting period, the hourly sale and purchase net amounts are to be aggregated and arrately reported in Account 447, Sales for Resale, or Account 555, Purchased Power, respectively.
