Management's Discussion and Analysis of Financial Condition and Results of Operations
Executive Summary
Non-GAAP Measures, page 38

1. We note that you identify several non-GAAP measures in your Executive Summary Utility Gross Margin, which you also identify as a non-GAAP measure for Eversource Energy, Inc., Eversource Kansas Central, Inc., and Eversource Metro, Inc. in your operating results on pages 45, 55, and 58. We see that you define the measure on page 44 as operating revenues less fuel and purchased power costs and amounts billed by the SPP for network transmission costs.

We also see that you utilize these non-GAAP measures within MD&A in your analyses of operating results. Based on your disclosures, these measures appear to exclude amounts that would be attributable to a GAAP measure of cost of revenue, as would be reflected in

a GAAP measure of gross margin. We believe that you should identify gross margin as the most comparable GAAP measure in providing the disclosures required by Item 10(e)(1)(i)(A) and Item 10(e)(1)(i)(B) of Regulation S-K.

Please revise your Executive Summary to include disclosures that encompass these non-GAAP measures along with the most directly comparable GAAP-based measures. Please submit the revisions that you propose to address these prominence and reconciliation

requirements, utilizing gross margin as the most comparable GAAP measure.

We remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.
